

The Complete ERP Solution for Additives & Masterbatch Manufacturing

INTEGRATED. INTELLIGENT. BUILT FOR PERFORMANCE.

SAP Business One empowers Additives & Masterbatch manufacturers with end-to-end control across production, quality, inventory, and finances.

One Integrated Solution. Complete Control.

- Advanced Production Management**
Plan and control recipes, batching, compounding, extrusion, and pelletizing in real time.
- Raw Material & Inventory Management**
Track additives, polymers, pigments, and fillers with lot/batch, expiry, and FIFO management.
- Quality Control & Compliance**
Ensure consistent quality with in-process checks, lab testing, and complete documentation.
- Batch Traceability & Recall Management**
Achieve full traceability from raw materials to finished masterbatch with recall readiness.
- Costing & Profitability Analysis**
Accurate cost tracking and profitability analysis by product, customer, and batch.
- Sales & Customer Management**
Manage enquiries, quotations, orders, and deliveries to build stronger customer relationships.
- Planning & Capacity Optimization**
Optimize machine utilization, reduce changeover time, and improve production efficiency.
- Recipe & Formula Management**
Manage complex formulas and variants with version control and accuracy.

BUILT FOR ADDITIVES & MASTERBATCH INDUSTRY

- Color Masterbatch & Additive Masterbatch
- UV Stabilizers, Flame Retardants, Antioxidants & Other Additives
- Filler Masterbatch (CaCO₃, Talc, etc.)
- Functional Masterbatch (Anti-Static, Anti-Block, Slip, Antimicrobial, etc.)
- Polymer Compounding & Performance Materials
- Export-Oriented Manufacturing

⚠ THE INDUSTRY REALITY

- Wide range of raw materials with variable specifications
- Complex formulas and frequent product changes
- Importance of color consistency and dispersion quality
- Inventory losses, expiry, and batch mixing risks
- Demand for traceability, compliance, and documentation
- Pressure on costs, efficiency, and on-time delivery

✅ WITH SAP BUSINESS ONE, YOU GET

- ✓ End-to-end visibility and control across operations
- ✓ Accurate formulation, production, and inventory management
- ✓ Consistent quality, traceability, and regulatory compliance
- ✓ Real-time insights for better decisions and higher profitability
- ✓ Efficient operations, lower waste, and improved customer satisfaction
- ✓ Scalable solution to support your growth and global business

KEY FEATURES

- Multi-Plant Management
- Real-time Dashboards
- Regulatory Compliance
- Mobile Access
- Integrated Analytics
- Secure & Scalable
